

Turtle - מציירים צורות ופרחים

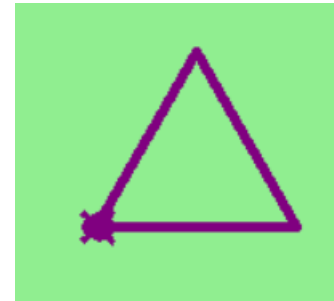

אנה קרומן

מצולע משוכלל

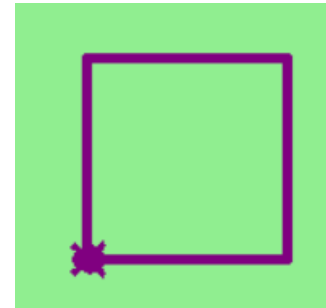

הזזית
 $360:3 = 120$

```
player.forward(100)  
player.lt(120)  
player.forward(100)  
player.lt(120)  
player.forward(100)  
player.lt(120)
```

הזזית
 $360:4 = 90$

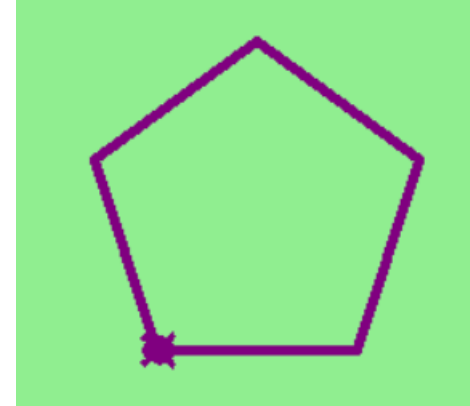

```
player.forward(100)  
player.left(90)  
player.forward(100)  
player.left(90)  
player.forward(100)  
player.left(90)  
player.forward(100)  
player.left(90)
```

מצולע משוכלל - המשר

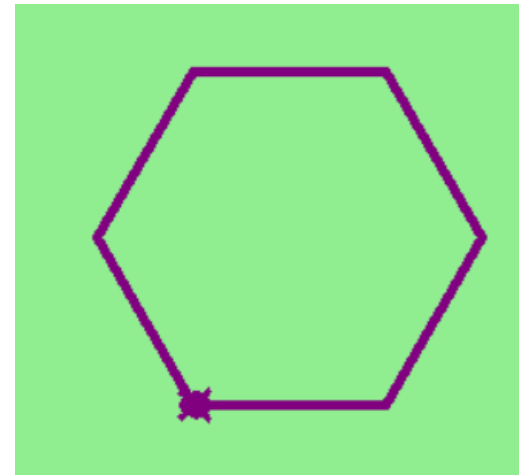

הזזית:
 $360:5 = 72$

```
player.forward(100)
player.lt(72)
player.forward(100)
player.lt(72)
player.forward(100)
player.lt(72)
player.forward(100)
player.lt(72)
player.forward(100)
player.lt(72)
```

הזזית:
 $360:6 = 60$

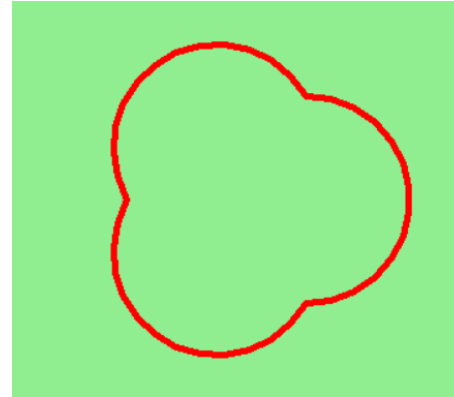

```
player.forward(100)
player.lt(60)
player.forward(100)
player.lt(60)
player.forward(100)
player.lt(60)
player.forward(100)
player.lt(60)
player.forward(100)
player.lt(60)
player.forward(100)
player.lt(60)
```

פרח

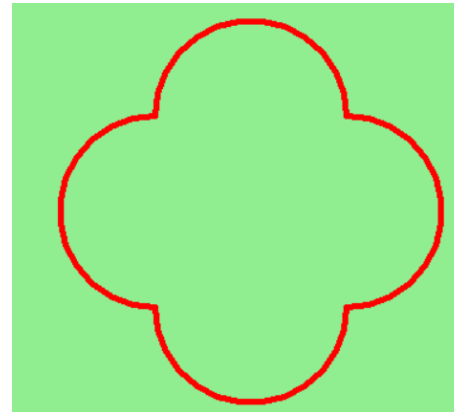

הזוית:
כמו הצלע
במשולש
שווה צלעות

```
player.circle(80,180)  
player.rt(60)  
player.circle(80,180)  
player.rt(60)  
player.circle(80,180)  
player.rt(60)
```

הזוית:
כמו הצלע
בריבוע

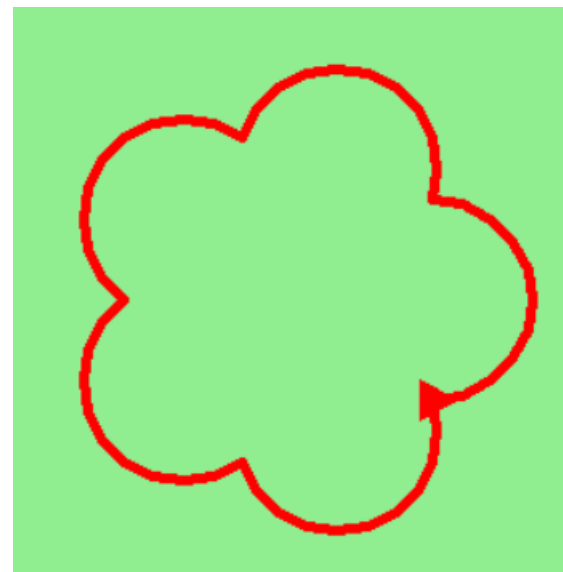

```
player.circle(80,180)  
player.rt(90)  
player.circle(80,180)  
player.rt(90)  
player.circle(80,180)  
player.rt(90)  
player.circle(80,180)  
player.rt(90)
```

פרח - המשך

הזוית:
כמו הצלע
במחומש

```
player.circle(50,180)  
player.rt(108)  
player.circle(50,180)  
player.rt(108)  
player.circle(50,180)  
player.rt(108)  
player.circle(50,180)  
player.rt(108)  
player.circle(50,180)  
player.rt(108)
```

עלים (ואפשר גם למלא בצבע)

```
player.fillcolor('Green')  
player.begin_fill()  
player.circle(140, 80)  
player.left(100)  
player.circle(140, 80)  
player.end_fill()
```

סכום הזוויות 180

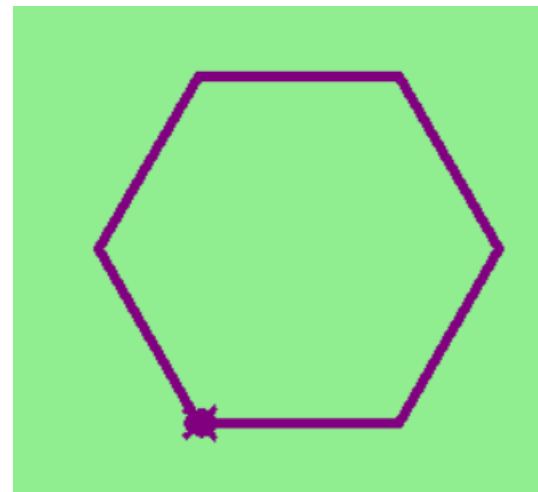

```
player.fillcolor('Green')  
player.begin_fill()  
player.circle(200, 40)  
player.left(140)  
player.circle(200, 40)  
player.end_fill()
```

סכום הזוויות 180

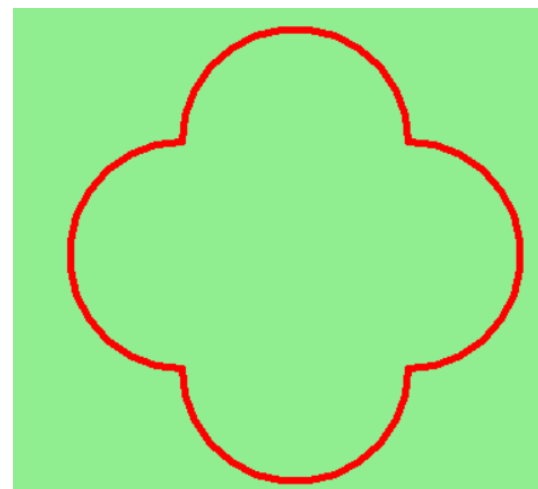

כמובן אפשר עם לולאות

```
for i in range(6):  
    player.forward(100)  
    player.lt(60)
```

```
for i in range(4):  
    player.circle(80,180)  
    player.rt(90)
```

לצייר n עלי כותרת

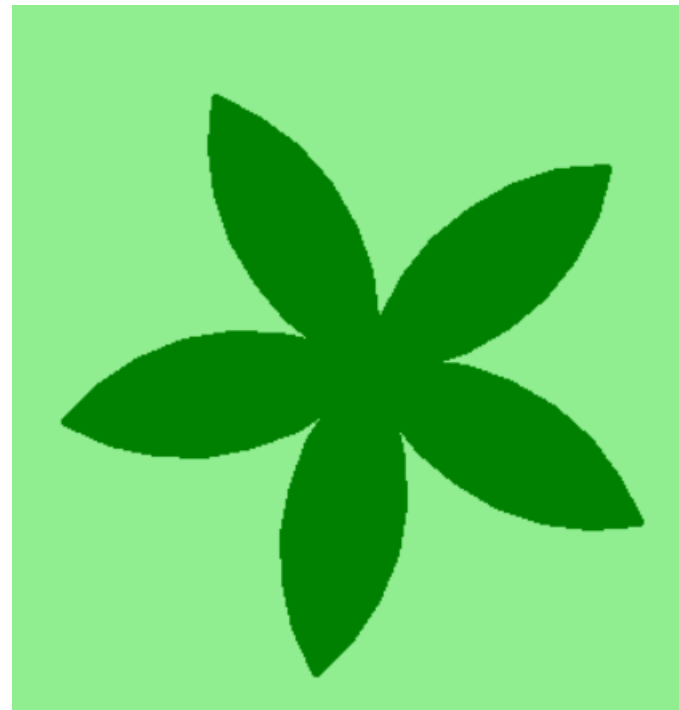

```
num_petals = int(input("Please enter the number of petals"))
angle = 180*(num_petals - 2)/num_petals
for i in range(num_petals):
    player.circle(80,180)
    player.rt(angle)
```

לצייר מצולע בעל n צלעות

```
num_edges = int(input("Please enter the number of edges"))
angle = 360/num_edges
for i in range(num_edges):
    player.forward(100)
    player.rt(angle)
```

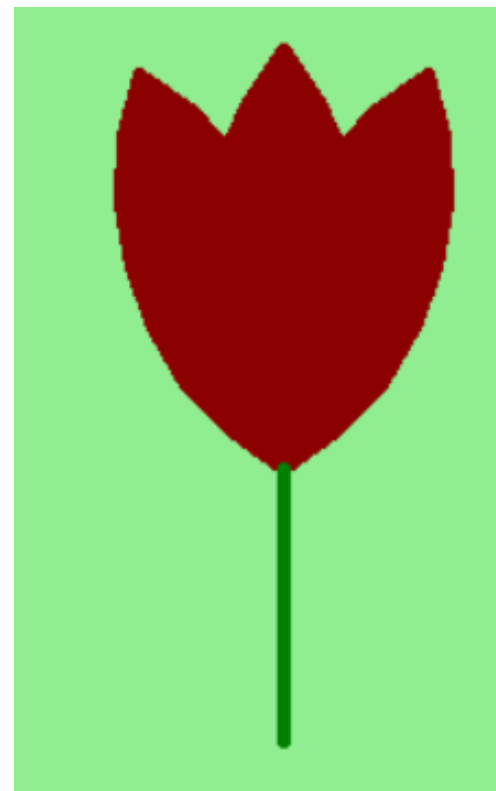

פרח קצת אחר

```
player.fillcolor('Green')
player.begin_fill()
for i in range(5):
    player.circle(120, 80)
    player.left(100)
    player.circle(120, 80)
    player.left(30)
player.end_fill()
```

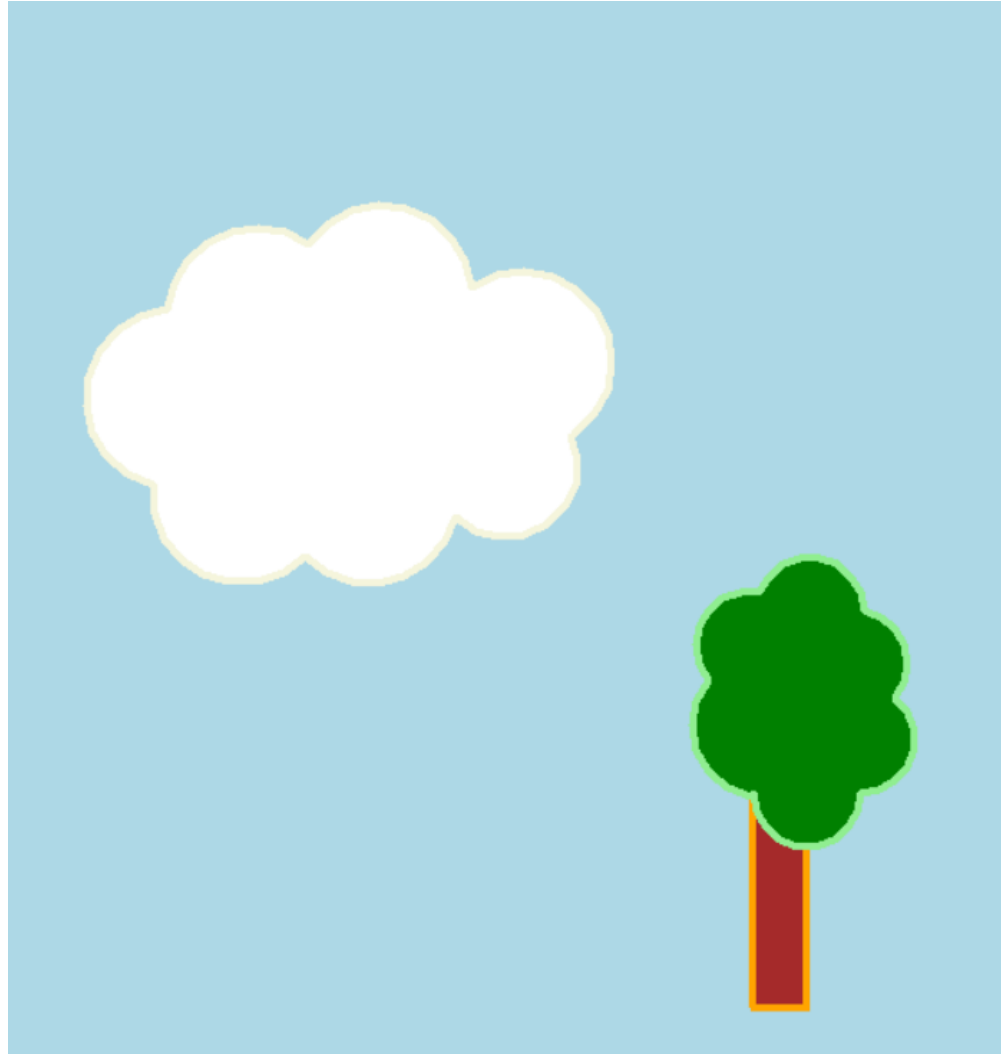

עוד פרח קצת אחר

```
player.color('DarkRed')
player.fillcolor('DarkRed')
player.begin_fill()
for i in range(3):
    player.circle(120, 80)
    player.left(100)
    player.circle(120, 80)
    player.left(80)
player.end_fill()
player.rt(100)
player.color('Green')
player.forward(100)
```

תמיד אפשר לנסות עוד דברים (הקוד בעמוד הבא)

```
player.begin_fill()  
player.fillcolor('White')  
player.lt(35)  
player.circle(50,180)  
player.rt(120)  
player.circle(50,140)  
player.rt(90)  
player.circle(50,120)  
player.rt(80)  
player.circle(50,160)  
player.rt(80)  
player.circle(50,140)  
player.rt(90)  
player.circle(50,120)  
player.rt(120)  
player.circle(40,160)  
player.end_fill()  
player.pu()  
player.goto(100,-200)
```

```
player.pd()  
player.color('Orange')  
player.begin_fill()  
player.fillcolor('Brown')  
player.lt(35)  
player.lt(120)  
player.forward(120)  
player.lt(90)  
player.forward(30)  
player.lt(90)  
player.forward(120)  
player.lt(90)  
player.forward(30)  
player.end_fill()  
player.pencolor("LightGreen")  
player.begin_fill()  
player.fillcolor('Green')  
player.lt(90)  
player.circle(30,180)  
player.rt(90)  
player.circle(30,140)
```

```
player.rt(90)  
player.circle(30,120)  
player.rt(80)  
player.circle(30,160)  
player.rt(80)  
player.circle(30,140)  
player.rt(80)  
player.circle(40,120)  
player.end_fill()  
turtle.done()
```
